

# Information about launch activity in the period from June 15th to June 21st, 2026

## Launch activity

County road FV7698 will be closed between Nordmela and Nøss in connection with the launch of Isar Aerospace's launch vehicle Spectrum.

1 The danger area on land will be cleared and closed for unauthorized persons while hazardous activities are ongoing.

2 The limited capacity zones are reserved for permanent residents, and we kindly ask everyone else to remain outside these areas.

In addition, a maritime safety zone will be established in the nearby ocean areas.

## Permanent airspace restrictions

3 There is a no-fly zone in the area, including for drones. All aircraft must apply for permission to use the airspace by sending an application to [luftronskoordinering@andoyaspace.no](mailto:luftronskoordinering@andoyaspace.no).

## Launch period

The launch will occur sometime between June 15th to June 21st, 2026.

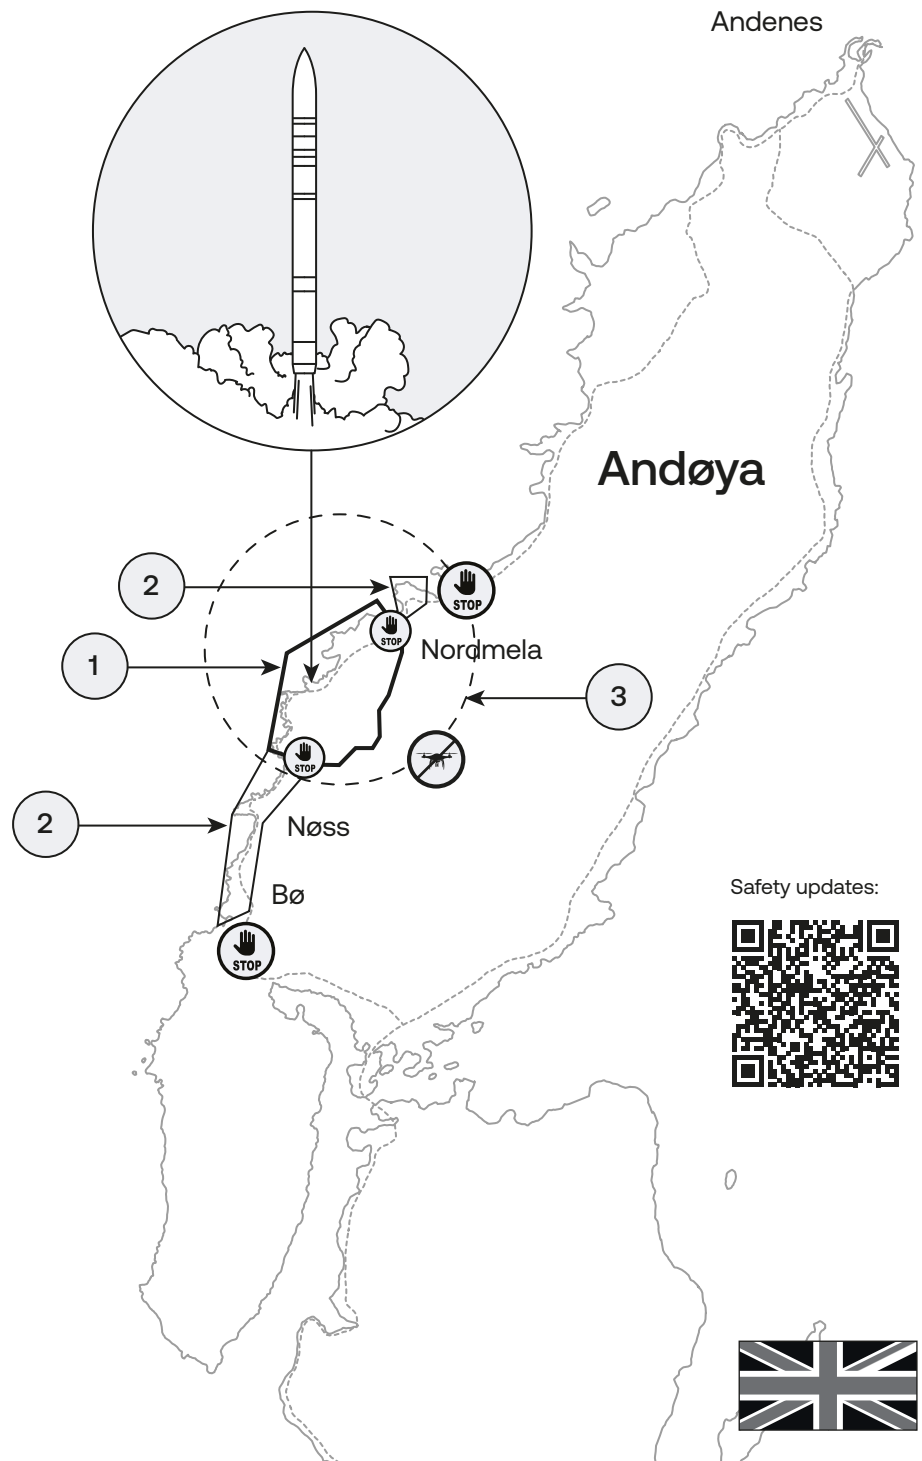

## Time for road closure

Estimated up to 8 hours, between 17:00 to 01:00 local time.
